THE MONEY SHOT

SYNOPSIS

Karen and Steve are glamorous movie stars with one thing in common: desperation. It's been years since either one's had a hit, but the latest movie by a hot-shot European director could change that. The night before filming a big scene (that will undoubtedly assure them a spot back on the pop culture radar), Karen, her partner Bev, Steve and his aspiring actress wife Missy, meet in order to make an important decision: how far will they let themselves go to keep from slipping further down the Hollywood food chain?

“Sexy, daring and darkly comedic - and Neil LaBute’s first officially billed comedy - The Money Shot lands as sharp as a paparazzo’s camera flash in a starlet’s eye.”

- Variety

THE MONEY \$HOT

"Sometimes—most times, actually—life is stranger than fiction and this was one of those rare times that I took a story nugget for a play from something that actually happened out there in the real world..."

An assistant director told me a story about a certain film directed by a certain Frenchman who had asked a certain set of terrific actors if they would have actual sex in his film. They apparently considered the suggestion and brought their loved ones into the discussion. This just seemed like too rich an idea to let slip away; the rest I imagined."
